

MARCH AND ASSEMBLY

Saturday 22nd Nov
at 2pm.
Neilstown Shops.

Called By:

MASTACTION CLONDALKIN

Mastaction Clondalkin is organising a March for the 22nd November at 2pm, starting at Neilstown Shops.

Why are we concerned?

In recent times an alarming number of residents have become ill and sadly some have passed away in the Ronan's Gardens area.

Is this a coincidence or is it been caused by something else in the area?

After a report in the Evening Herald last year about high numbers of Gardai suffering from cancer related illnesses, residents of Ronanstown organised a series of public meeting on the issue of the high incidences of cancer in the Ronanstown area.

Was it been caused by the phone mast in the Garda station, or a combination of the electrical pylons, which run through the North Clondalkin area.?

We conducted a small health survey of the area, and presented it to the H.S.E to investigate our claims.

There conclusion was inconclusive on the effects of phone masts and electrical pylons in area we surveyed. Meaning they did not know what was causing the illnesses.

Our aim from the start of our campaign was to find what was causing these illnesses. We have done everything that can be done to highlight the issue.

We have almost come full circle in the campaign.

Now we are taking to the streets once more, and we hope you can join us in solidarity.

Remember this just doesn't affect the residents of Ronanstown, it affects everybody. Let them know.

OUR HEALTH, IS NOT THERE WEALTH.
